NEWSPAPER ARCHIVE®

BANGOR DAILY WHIG AND COURIER.

BY SMITH & SAYWARD. FRIDAY, DECEMBER 6, 1850. VOLUME XVII.....NUMBER 135.

Bangor Daily Whig and Courier

IS PUBLISHED

Over the Kenduskeag Bridge, at Four Dollars a year, payable half yearly in advance. All subscriptions for less than a year to be paid in advance, and all orders for discontinuance must be accompanied by the amount due.

The BANGOR COURIER is published at the office of the Daily Whig and Courier, every Thursday morning, at Two Dollars a year in advance, or Two Dollars and Fifty Cents if not paid within six months from the time of subscribing.

☞ The publishers will not hold themselves responsible for any errors that may occur, by omission or otherwise, further than to insert in the next paper after the error is discovered, a correct notice of the same.

Mr. V. B. PALMER, is agent for these papers. Advertisements left with him will be punctually inserted.

M. SCHWARTZ,

SAW MANUFACTURER,

HAS ON HAND AND OFFERS FOR SALE,

500 MILL SAWS
100 Circular do
500 X Cut Hand and Back Saws
100 Pit do
Sulky
Saw Arbors and Shingle Machine
Files
150 Doz Files and Rasps.

PLANES,

A large Stock of the different kinds.

NAILS,

Cut and Wrought

Glass and Putty,

A small Stock of German and American WINDOW GLASS from 6 X 8 to 10 X 12

Zinc, Sheet Lead and Pipe

PUMPS,

Head Blocks and Sheaves, Jacks, Levers, Knobs, Butts and Screws

BUILDING MATERIALS

Of every description.

Curtain Bands, Pins and Cornices.

CUTLERY,

Table and Pocket Knives and Forks, Scissors and Razors,

Britannia and Hollow Ware &c. &c.

The above articles are sold very cheap for cash or approved credit.

Please call and examine for yourselves, at No. 5th SCHWARTZ, 104 Exchange Street.

ELEGANT AND INVALUABLE Articles for the Toilet.

Bogle's Hyperion Fluid.

For Restoring, Preserving and Beautifying the HAIR.

The following Certificate from Dr. Winslow Lewis, one of the most eminent Physicians of Boston, will show the estimation in which it is held by the medical fraternity, but is only one of many similar ones.

Boston, Feb. 15, 1847.

Mr. Wm. Bogle—Sir, The preparation invented by you for the hair, I have used extensively used for my own, and have given it to families in preference to other compositions of the kind. It promotes a healthy growth, and cleanses the skin of all impurities, while it prevents any ultimate deleterious effects, which are so frequent the result of many well-known potential compounds.

WINSLOW LEWIS.

It is an indispensable article for the Ladies, as it keeps the scalp in a cool and healthy state, and the skin of a beautiful color. See Pamphlets.

BOGLE'S AMOLE,

A COMPOUND FOR SHAVING.

This delightful article is totally different in appearance to anything used in shaving. The base of it is carried from the South, or "Soap plant" by the Indians, an article used by the natives of that country for washing, and from the use of strong alkalies, such as soda, potash, &c., and the many injurious and dangerous properties of the general mixtures now comprising efforts in the shape of Shaving Soaps, &c., the use of which must, in a short time, create irritation, and thus check, causing father, which is so painful on the face. It is a decided luxury to be able, after shaving, to wash with soap. It makes up in compact style, is handy for the traveller, and is the toilet of the most fastidious connoisseur.

Bogle's Hebenioma,

FOR REFRESHING AND BEAUTIFYING THE COMPLEXION.

Eradicates Tan, Pimples, and other impurities of the skin, and renders it fair, delicate and blooming. It is equally efficacious in protecting the skin from the hot sun's rays, or cutting winds, and for giving the lady's toilet that fragrant and delicious article to be found at the toilet of fashion.

All the above articles have stood the test of the strictest investigation, and are warranted superior to anything yet invented. Ask, if not found, to prove the reverse, the money will be refunded by

WILLIAM BOGLE, Proprietor.

AYER'S

CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

In offering to the community this remedy, we feel confident that we are not promising to the afflicted more than we can perform. Having been for many years engaged in the practice of medicine, and in the preparation and administration of our own remedies, we have had ample opportunity of ascertaining the value of the ingredients of which this is composed, and of the effects which it will produce under the various circumstances to which it is adapted. Hence we are enabled to speak understandingly of its virtues, and to say to the afflicted, what we can conscientiously believe, that it will cure them. Of its ultimate effects, when taken according to the directions we shall need to say nothing.

J. C. AYER & CO.

Lowell, Mass., Feb. 1847.

From the Distinguished Professor of Chemistry and Materia Medica, Bowdoin College.

Brunswick, Me., Feb. 1847.

From an Overseer in the Hamilton Mills, at Lowell.

Dr. J. C. Ayer & Co. Lowell, Aug. 6, 1849.

Gentlemen—Having used your Cherry Pectoral in my family, and also in my practice, I have no hesitation in saying it is the best medicine for Coughs, Colds, Hoarseness, Bronchitis, Whooping-Cough, Croup, Asthma, and Consumption, with which we are acquainted. Its effects upon the system are prompt and salutary, and it may be relied on with confidence to cure the above complaints, when they are curable by any medicine. Yours, &c.

D. D. FISHER, M. D.

Prepared and sold by JAMES C. AYER, Practical Chemist, Lowell, Mass.

Sold by the Agents in Bangor, and by Druggists generally throughout the country.

LADD & INGRAHAM, Bangor, Agents for Penobscot County.

Nov. 29, 1849. 6m

PATENTS,

American and Foreign Office,

AGENCY FOR BUSINESS

WITH U. S. PATENT OFFICE,

WASHINGTON.

No. 22 State Street, - Boston.

IN 1810 the undersigned was appointed by the Commissioner of Patents, Agent for the U. S. Patent Office, in accordance with the provisions of Act of '37.

Having resigned the Agency for the purpose of Modern, and under a new appointment of sending them to the Patent Office, continues to forward them free of exchange, to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice in regard to the value of inventions referring the same. Patents secured in Europe at a small expense.

By application at this office, inventors are saved the time and expense of a journey to Washington and from there, as well as all personal trouble, in obtaining their patents. They also have the assistance of persons explaining their inventions, and if consisting in part of the same, matters, in case of interference and interference in order to obtain correspondence and decisions thereon. The experience of the present Agent, in connection with the Patent Office, for the last fifteen years, and his acquaintance with the modes of proceeding in all cases before the Commissioner, Examiners, and Law Agents, enable him to offer advantages to inventors not to be found elsewhere.

All persons having inventions to patent are invited to call at the office, or address him by letter, post paid.

Reference to Hon. Edmund Burke, late Commissioner of Patents.

Wilder's Patent SALAMANDER SAFES

98 STATE STREET,

Corner of Merchant's Row.

SECURED AGAINST GUNPOWDER

Warranted not to Injure Books or Papers by Dampness.

THESE are the only Safes which have ever stood the test of Gunpowder. Their superiority over all others has been proved in the most severe and satisfactory manner, by the following certificate from JOHN L. WILDER, Esq., of Salem, whose Safe was recently tested by the burning of the Custom House in that city:

SALEM, Oct. 22, 1849.

Dear Sir,—In reply to your note of this morning, I have to say that the Safe purchased of you by the Directors of the Salem Marine Society, was in the Custom House fire, and was found perfectly tight when opened. The books and papers were uninjured, and the Safe was in every respect as good as new. I have no hesitation in saying that I consider it the best Safe I have ever seen, and I have had considerable experience in the matter.

Yours, truly, JAS. EDDY.

Salem, Oct. 22, 1849

Whig and Courier.

John S. Sayward, Editor.

FRIDAY, DECEMBER 6, 1850.

Mr. Paine's Light.

Our old friend Amos L. Perry, formerly of this city and now editor of the Worcester Daily Tri-bune, a man whose statements may be relied upon, and whose mechanical and scientific skill would prevent his being imposed upon, has satisfied himself that Mr. Paine's discoveries in appropriating water to the purposes of light and heat are genuine. He says he is prepared to assure his readers and all other persons far and near—the most skeptical as well as the most credulous—that there is no humbug about Mr. Paine's illuminating gas. He has visited Mr Paine's shop, seen the machine in pieces, and examined every part of it; even to the interior of those mysterious and all important *helices* and *electrodes*. He saw it put together, operated it, made the gas and experimented with it at his pleasure.

The machine used on this occasion was small, very simple, and operated by hand instead of clock work. It is only intended for one, or two burners.

The whole apparatus was placed upon a small table, the machine at the left, the decomposing jar in the centre and the vessel for catching the gas, at the right. The machine consists of the horse shoe magnet, the helices, which are attached to opposite sides of a small upright shaft. This shaft is made to revolve, with the desirable speed, by means of a band running from a wheel around a pulley at the top. A flat wire or strap of metal connects this machine with the electrode, which is immersed in water in the decomposing jar. The latter consists of a large glass jar, half filled with water, inside of which is another jar, made air tight, where they connect at the top, and open at the bottom, and within this last is situated the electrodes. Thus as the machine is operated, the bubbles are seen to rise from the water, as fast as the gas is evolved. A pipe conveys the gas into the vessel containing the turpentine, where it is carbonized, or catalized. A wire is connected with a branch from the electrode to conduct the electrical current away, and keep up the action.—It is not necessary to give a more minute description of the apparatus, nor is it easy to do so without cuts.

After the apparatus was put in shape a few turns of the wheel which communicates motion to the helices were made, when the gas began to appear. The air was gradually expelled, and in a few moments a match was applied to the burner. The light was at first pale, but as more pressure was added by increasing the quantity of gas in the jar, it became more and more brilliant. Its brilliancy could be increased or diminished at pleasure, by operating the machine.

To test the gas it was lighted at a burner attached to the pipe, between the decomposing jar and the turpentine vessel. The flame was like pure hydrogen—scarcely perceptible. To be sure that the decomposing jar contained only water, it was submitted to the taste.

There was no secret pipe or anything of the kind connected with the receiving jar or any other part of the apparatus. The whole establishment was moveable on the table; the liquid in the jar was pure water, and there was no chance for any deception. The machine can be made to operate, and produce these astonishing results at a barely nominal expense, till it is worn out, which will require investigation and experiment. The most important of these, is that WATER is a simple substance and that what has heretofore been considered its constituent gases—hydrogen and oxygen—are merely different electrical states of the same substance. For instance, the *positive* current produces all hydrogen, and the *negative* all oxygen. Thus it will be seen that the water is not *decomposed* but *converted*, or *transmuted* into one of the other gas, at pleasure. And what chemists have heretofore regarded as the definite proportions of these two gases necessary to form water, means simply, that a given quantity of water will make eight times as much hydrogen as oxygen.

Mr. Perry says he is not at liberty to describe the peculiar manner in which the helices and electrodes are made, for in them is all the secret which has enabled Mr. Paine to triumph, where other experimenters have failed. The method employed by Mr Paine to overcome the obstacles which have baffled other experimentors is so simple, that a person of all conversant with electrical machines, would instantly see its importance and the grand results which would be likely to follow its adoption. This is a simple explanation of the secret if the patents are secured.

Mr. Edward L. Brown, the agent who left for Europe in the last steamer, though he had been engaged on the drawings and conversant with the machine for months, never saw the interior of the helices and electrodes, till the evening before he sailed. Nor had he been enlightened about their construction, though he had perfect confidence in the genuineness of what Mr. Paine claimed to have discovered. When they were exhibited to him, he was completely astonished at the ingenuity and ingenuity adopted by the inventor to secure the wished for result.

Our friend believes that any capitalist who shall see the machine in full operation, even without understanding the secret parts, will admit that Mr. Paine has discovered exactly what he claims. And also that notwithstanding the lies and cry which has been raised against him here as well as elsewhere, some of the citizens of Worcester, who are best qualified to judge of these things, have all along been firm in the faith that Mr. Paine's discovery was genuine.

☞ Mr. Currie, in a paper read before the Paris Academy, has pointed out the cause of sea sickness; he has shown that it depends upon the movement of the intestinal canal, which floats as it were in the abdomen. It descends with every movement of the vessel, and then ascending, pushes up the stomach and the diaphragm. His theory, well explained, was well received, and Magendie and Serres-dalles gave their assent to it. But his remedy was thought more ingenious than practicable. It was to breathe in with every downward movement of the vessels, and expire the air with its ascent—What seemed more easy, and is known to be more effectual, is a horizontal position in the middle of the ship, and a tight bandage over the abdomen.

A NEW SPECULATION.—According to the Courier des Etats Unis, a speculator is at present maturing, in Paris, some three or four hundred women, with a view to take them to California, where gold is, and the fair sex not abundant. The furniture of more than two hundred of these young fugitives was sold at the Place de la Bourse on the 15th ult., they being unwilling to incur a new term of rent. The speculator in question, whose name is not given, is going to establish a matrimonial office at San Francisco, after the fashion of that of Mons Moy, at Paris.

The editor of the Knickerbocker is such a moral man, that he writes the name of a famous Dutch city thus:—Rotterd-m.

Burning of the Lunatic Hospital.

We must wait with what of patience we can command for a full statement of the facts regarding this terrible disaster, before we can speak out as we feel strongly inclined to do. The intelligence which has reached this city is, that Major Joshua Norwood and Charles Harlow, both of this city, perished in the flames, and that William G. Linscott, also of this city, died yesterday morning from the effects of suffocation. Besides these three victims to what appears an outrageous and unpardonable carelessness, there were in that institution from this city, seven other persons—two men and five women.

The reports are that the hospital took fire on the evening of the night previous to the destruction of the Hospital and that it was supposed to be extinguished, but that the fire broke out again at three o'clock in the morning, and the cry was raised by the inmates, locked in their rooms, and no attention was paid to the cry until the smoke on the building attracted attention. If these are the facts, then ——— but we will wait.

The patients belonging to this city were to leave Augusta yesterday morning, and were expected to arrive here last evening.

DOINGS.—Everybody knows that the Secretary of the Interior has decided that no soldier can receive more than one land warrant, altho' he may have rendered service which, if performed by several, would have entitled each to such compensation.

The Hopper candidate, who had declared himself in favor of the next war with Mexico, has, on this account of this, changed his politics. He is doubtful whether the next war will be popular at all, and quite sure that it wont be till it is *utterly all fought out*.

COLORED EMIGRATION.—The steamer Clyde arrived at St. Thomas on the 15th, from Jamaica. No papers had been received, but verbal accounts from the officers and passengers report, that the cholera was increasing to a frightful extent. The loss of life was very great, the accounts of deaths being from 150 to 200 per day. The inhabitants were dying so fast that coffins could not be procured to supply the demand, and in some instances pits were obliged to be dug to bury the dead. Every precaution was being used to check its ravages, but thus far without effect.

Lecture this Evening.

Dr. Jackson will commence his course of lectures on Chemistry, at the City Hall this evening, introducing this subject in his first lecture on the combinations of oxygen, and illustrating it with various experiments and brilliant illuminations. It will be a very attractive lecture and the experiments worth witnessing. This course of lectures promises to be very popular with all our people.

The Mississippi Legislature, by the joint action of both Houses, have appointed a committee of 18 of the House, and 7 of the Senate, to report upon existing difficulties. It is said that this proposition will be carried by a decided majority. Gov Quitman has sent in a message asking for the immediate organization of the militia.

☞ A Yankee addressed a very polite letter to the Commissioners of the World's Fair, inquiring whether they would hire him to make American pipes, cobblers, brandy smashes, etc., in the refreshment rooms of the Glass Palace in Hyde Park. After waiting ten days, the Yankee received a lengthy reply, written on a mammoth sheet, and sealed with a pound of wax, asking him to bottle up one of pale and send it to the Commissioners as a sample of what he intended.

☞ The Boston Post says, Barnum has received a letter from San Francisco, asking if he would come there with Jenny Lind and give ten concerts, one hundred persons will obligate themselves to pay him $500 each for each of the ten nights, and to take the risk of selling the tickets—Five hundred thousand dollars for ten concerts!

Gov. Seabrook, in his recent message to the Legislature, says that over twenty thousand persons in South Carolina are ignorant of reading and writing! An ascertained truth, he adds, well calculated to excite general and anxious inquiry concerning the causes of so painful a moral calamity.

☞ Advertising has enlarged many a small business and revived many a dull one. Those who do not believe in advertising are those who have never tried it. The business man who only occasionally advertises merchandise, can not expect to become as well known as he who is continually before the public.

☞ The Harmonicons, who proposed giving a concert at the City Hall on Thanksgiving evening, have concluded to postpone their visit to a more convenient season, on account of the suspension of the trips of the steamer Governor.

☞ The statistics of the Methodist Church North, for 1850, show the following results: 4,129 travelling preachers, 5,620 local do., and 689,582 members, being an increase as compared with the previous year, of 138 travelling, and 265 local preachers, and 26,578 members.

☞ The Legislature of Kentucky is about to erect a monument to the memory of Col Richard M. Johnson. The members of the Legislature were allowed to vote by an outcry on the old hero, by one of their number.

☞ A Mobile paper says that Englishmen beginning to think the fugitive slaves, who have run to Canada, would form a good population for the West Indies, and that they propose that these islands should form an asylum for all of our fugitive slaves.

☞ The track of the Atlantic and St Lawrence Railroad is now laid as far up as Bacon Falls; this is to say, ten miles above Paris Cape Depot, and the locomotive used in the construction of the road, now runs up to Shoal Falls.

The people of Michigan, at the recent election, adopted the new Constitution by a majority of five or six to one, but rejected the equal suffrage proposition by a vote of about three to one.

Dr. Jackson's Lectures.

To the Editor of the Whig and Courier.

MR. EDITOR:—Occasionally we hear persons complain of the price of tickets to Dr. Jackson's lectures, and insinuating that there is some speculation in the matter.

The Association have incurred a great responsibility in obtaining these lectures and deserve to be well sustained, even if the price of tickets had been fixed at a much higher rate than it is. But when we consider that the average price of admission to each lecture, for a gentleman and lady and one child, and for a gentleman and lady and seven children, is but eight cents each, we must admit that we have very close and low compliments.

The City Hall has been recently crowded to hear concert music, and poor stuff too, at 25 cents a piece, and no grumbling at the price.

Now I want we all of us to give one evening of this week to hear a lecture from one of the most scientific men in the country, on subjects as vitally interesting and important as any that can be mentioned.

COMMON SENSE.

George Thompson in England and America.

The editor of the New York Observer, a religious journal of high standing, after speaking of the refusal to let Mr. Thompson speak in Faneuil Hall, gives his own experience of the conduct of that gentleman and his friends, at home, which we copy below:—

We, ourselves were present, in the spring of 1840, at the Freemason's Hall, in London, at a meeting of English Abolitionists, who clamorously refused to hear the Rev. William Chalmers, of the Free Church of Scotland, defend himself against this very George Thompson, Esq., who treat with scurrility and unfeelingly denounced Mr. Chalmers for refusing to read publications from slave holders in America, in aid of the Free Church of Scotland. Mr. Thompson was the chief speaker, and the chief inquisitor of the clamor to that occasion, and Mr. Chalmers was compelled to sit and hear it all, without the privilege of speaking in his own defence. Of all men in the world, therefore, an Englishman, and of all Englishmen, George Thompson, Esq., is the last who has a right to complain of the proceedings in Faneuil Hall last week.—*N. Y. Observer.*

☞ A friend in Portland has sent us a copy of a literary paper published in that city, entitled Portland Pleasure Boat, in which we find copied from our columns the account of the indignation meeting of the gas persons this city on account of the latches of Thanksgiving, and also the famous Proclamation of the venerable Maddox. The editor thus discourses upon the subject:

Only see what the above account of the proceedings of the Bangor Paupers at the Pleasure Boat, our crew were collected together, and a venerable old skipper named Common Sense was placed in the chair, and Jeremiah the scribe was appointed secretary.

The Proclamation of Gov. Maddox was read by Commodore Independence and compared with various documents from other public functionaries, and after a short speech from Common Sense, the following resolves were passed without a dissenting voice.

Resolved, That in our opinion, the resolutions and Proclamation of the Bangor Paupers is the ablest, soundest and most suitable document we have ever seen issued from any body of public men either in this State or the whole United States;—therefore

Resolved, That in our opinion the present Legislature of this State should be abolished, exported, or got rid of in the quickest and cheapest manner possible, that the State House at Augusta be sold at Auction, and the money returned to those from whom the purates took it;—that the Bangor Alms House be henceforth Maddox be installed or set Lifed in the room of Gov. Hubbard.

Resolved, That by this important change or *Revolution*, the State would get rid of the enormous expense of supporting a host of loafers at Augusta two-thirds of the year, would have their business attended to in a direct common-sense manner, and would be restoring them to their proper station who have been crowded to the earth and carted off to the poor-house by demagogues, and would also, at the same time, free the Augusta loafers up and river, where they should have been long ago.

Resolved, That these resolutions be published in the Pleasure Boat, and a copy be sent to the Hon. Caleb Maddox.

Per order,

COMMON SENSE.

☞ DEATH OF DR. DWIGHT.—The Rev. Dr. Dwight, formerly President of Hamilton College, died in the city on the morning of the 20th ult., at his lodgings. No name in New England is better known, than that of Dr. Sereno Dwight. He was a powerful and efficient minister of the Gospel—always popular as a preacher, and also well known as a writer, particularly as the author of the life of his relative, Jonathan Edwards, which caused him to visit Europe, having received from his father, the President of Yale College, a deed injunction to procure his name in writing a complete memoir of President Edwards.

Dr. Dwight's remains will be taken from this city to the care of his brother and relatives this morning, to be deposited in the family burial ground, New Haven. Although Dr. Dwight seldom indulged from home, on attentions that humanity or kindness could dictate were wanting on the part of those who surrounded him to contribute to his comfort and mitigate his suffering. He was under the medical care of Dr. Munn and Professor Jackson, of this city.—[Phil. Ledger, 25th.

The Union feeling in the North and South is strong, notwithstanding the efforts and movements of the agitators in both sections to weaken it, if not to sever the bonds which unite us together in one brotherhood. Misguided, ill-judging, or short-seeing men at each extreme, may scheme and plot against the Union, preach secession and disobedience to the laws—but the great body of the people will not respond to their revolutionary movements. We cannot say to what length the minority in the South—the agitators of Georgia, Alabama, Mississippi, and South Carolina may go—but it is hardly possible that any disunion project can succeed—certainly not if the North is faithful to its obligations.—[Lowell Courier.

BALTIMORE, Dec 3

The South Carolina Legislature on Friday had resolutions under discussion declaring their determination not to elect Senators to Congress, and instructing Senator Butler and the Representatives not to take their seats in Congress. Also a resolution instructing a committee to report a bill of non-intercourse with all States that throw obstacles in the way of the enforcement of the fugitive slave law, with a long preamble of grievances. It is also resolved that in the judgment of the Legislature secession is the proper remedy. Also that South Carolina sooner than submit to the aggressions of the federal Congress, will interpose her sovereignty to shield her citizens from further outrages and wrongs at every hazard.

WILD CAT.—We understand this fellow has left the Seminole country for the Rio Grande, and has taken off with him about one hundred negros. A large number started with him, but a company of Creeks pursued them and succeeded in capturing 70 or 80, mostly women and children. Wild Cat did not succeed in getting many of his tribe to follow him, only six or eight Seminoles being in his company. It is probable he will give the United States a great deal of trouble on the Rio Grande. He now has a wide range, and a large field for his operations. The troops on the Rio Grande will have to keep a sharp look out for him.—[Fort Smith (Ark.) Herald.

For the Whig and Courier.

TO ABSENT FRIENDS!

Friendship! Mysterious cement of the soul!
It is not long,—nb, life is short,—
'Tis but an atom of our day,
A remnant of the brief cohort
Of marshalled years that sped away,
Since, hearts commencing with the soul,
We stood above the woodland tide
And heard your silver streams carol,
Its station song and eventide,
How sweet the magic voice of song!
How fair the summer loaded prospect scene!
What music from its gorgeous throng,—
From dell and hill and woodland green,
How glorious, o'er the blushing earth,
The mellow flood of light appears
As Cynthia, at each morning's birth
Leaves the soft incense of the spheres.
Yes, beauty, joy and love, o'er all
The wide domain of Earth, shall stand,
While, sparkling round the convave wall
Of her unmeasured dome so grand,
Each trackless orb shall hold its way
While suns shall wax and moons shall wane
Till ebbing time and night and day
Shall bear us to the morning main.
But dearer than the combined whole
Is their unchanging faith in me
Whose Eros fills each lofty soul
With friendship, tow'ring, strong and free.
May days to come, bright as the past,
Bring quickly back that mystic chain
Whose jewelled links shall bind us fast
To join again the holy strain,

Bangor, Nov., 1850. L.

NOTICE.

The Constables of Hampden are requested to meet at the office of Geo. Stanwood, in said Hampden, on Saturday, the 7th instant, at 2 o'clock, P. M. to act on the following subjects, viz:

1st. To see if they will raise money enough to buy or build a house to keep what prisoners they arrest in the night where they can be under their charge.

2d. To see what they will do with the prisoners they have to take to Bangor, that they can go in safety from warm Democrats if they should be likely to freeze.

3d. To see what their compulsion and Constable has more authority or power to arresting prisoners than any other citizen.

Per order of the Committee.

Dec. 6th, 1850.

☞ It is said that the Yankee troops sums down to pray did drop.

And Mr Gideon Dixon he stooped to view their crops,
And pulled their hats and whiskers, so loudly they did snore,
And swore to God they could fight a California bear.

Bad Farrington finds out at last, he is now resistant, though he is selling PARSENIUS he thinks he is not.

☞ Some folks are President, Thank's no spavined critter, But if you want PIG'S FEET, or pigs, just call upon the Bitter.

☞ More than one hundred persons of the first respectability, in Hampden, among them some of the best medical practitioners in the county, have certified to facts from their own experience of a remedy, which proved beyond disbelief, that for cases of General Debility and indigestion, and in all cases of Sick Headache, Pains in various parts of the body, and other forms of the complaint, this remedy will generally be found the HOLDEN'S ALTERATIVE AND TONIC MIXTURE. dec4w0m nov 7

BY THE LAST MAIL.

LATER FROM EUROPE.

ARRIVAL OF THE

ARCTIC.

The Arctic arrived at New York on Wednesday night. Since the Europa left Liverpool the markets have been very lively and Cotton has advanced ½d.

The overland mail had arrived and Calcutta and China markets were unusually active.

A large and satisfactory business was doing in Manchester, and at Havre. Cotton was active and prices were firm and on the rise.

Corn has advanced 6d per quarter. In Flour no change in price, but large transactions.

ENGLAND.

The excitement created by the recent acts of the Pope continues, and meetings are being held everywhere. A great one was to take place in Liverpool on the day the Arctic left.

Lord Charles Russell, a brother of the premier, had made a most extravagant denunciation of the papal aggression.

The port of Hull has materially reduced its charges, with a view, it is said, of getting an American trade.

A Government Commissioner has been appointed to report as to removing the transatlantic mail station from Liverpool to the western coast of Ireland. The Liverpool Chamber of Commerce protested against it, and endeavored to obtain great facilities to be given to the American trade and shipping of the port.

FRANCE.—The President's message is generally well received, save in a few quarters.—The proposition of calling out 140,000 men is variously received. On Monday the funds closed dull.

GERMANY.—The aspect of affairs from here has again changed and it is now believed war will be avoided. The Court of Vienna is to concede to the Prussian Cabinet the non-reorganization of the old Confederation, but still the Frankfort Diet is to be the organ of that body de facto.

Prussian troops are to occupy part of Hesse Cassel. Gen. Radetzky, of Austria, has protested against war with Prussia.

INDIA AND CHINA.—No political event of importance had occurred. Intelligence had reached Singapore of a victory of the Dutch over the Chinese in Sambas River.

The Cotton market closed very animated. From Sheffield the accounts are favorable. Provisions quiet. Ashes dull. Rice steady. Sugar firm. Coffee quiet. Tea steady. Tobacco firm. Rosin dull. Spirits turpentine dull. Linseed oil dull. Lard oil dull. Whale oil dull. Sperm oil dull. Linseed dull. Hemp dull. Saltpetre dull. Jute dull. Shellac dull. Opium dull. Indigo dull. Quicksilver dull. Quinine dull. Logwood dull. Fustic dull. Camphor dull. Gambier dull. Cochineal dull. Nutgalls dull. Madder dull. Sumac dull. Cutch dull. Gum Arabic dull. Gum Senegal dull. Gum Tragacanth dull. Gum Copal dull. Gum Benzoin dull. Gum Myrrh dull. Gum Olibanum dull. Gum Assafoetida dull. Gum Ammoniac dull. Gum Galbanum dull. Gum Scammony dull. Gum Guaiacum dull. Gum Kino dull. Gum Dragon dull. Gum Camphor dull. Gum Opium dull. Gum Benzoin dull. Gum Myrrh dull. Gum Olibanum dull. Gum Assafoetida dull. Gum Ammoniac dull. Gum Galbanum dull. Gum Scammony dull. Gum Guaiacum dull. Gum Kino dull. Gum Dragon dull. Gum Camphor dull.

Congressional.

In the Senate, Dec. 3, the following Senators appointed, Mr. Hunter, Mr. Dickinson, Mr. Cooper, Mr. Chester Butler, Mr. Clay, Mr. Bell, Mr. Foote, Mr. Houston, Mr. Rusk, Mr. Soulé, Mr. Benjamin, Mr. Underwood, Mr. Dodge, Mr. Douglas, Mr. Shields, Mr. Walker, Mr. Bright, Mr. Jones, Mr. Fitzpatrick, Mr. Badger, Mr. Mason, Mr. Butler, Mr. Davis, Mr. Atchison, Mr. Sebastian, Mr. Borland, Mr. Pratt, Mr. Downs, Mr. Norris, Mr. Phelps, Mr. Upham, Mr. Miller, Mr. Felch, Mr. Dodge, Mr. Whitcomb, Mr. Cass, Mr. Shields, Mr. Walker, Mr. Bright, Mr. Jones, Mr. Fitzpatrick, Mr. Badger, Mr. Mason, Mr. Butler, Mr. Davis, Mr. Atchison, Mr. Sebastian, Mr. Borland, Mr. Pratt, Mr. Downs, Mr. Norris, Mr. Phelps, Mr. Upham, Mr. Miller, Mr. Felch, Mr. Dodge, Mr. Whitcomb, Mr. Cass.

In the House, Dec. 3, the following members appointed, Mr. Boyd, Mr. Dickinson, Mr. Cooper, Mr. Chester Butler, Mr. Clay, Mr. Bell, Mr. Foote, Mr. Houston, Mr. Rusk, Mr. Soulé, Mr. Benjamin, Mr. Underwood, Mr. Dodge, Mr. Douglas, Mr. Shields, Mr. Walker, Mr. Bright, Mr. Jones, Mr. Fitzpatrick, Mr. Badger, Mr. Mason, Mr. Butler, Mr. Davis, Mr. Atchison, Mr. Sebastian, Mr. Borland, Mr. Pratt, Mr. Downs, Mr. Norris, Mr. Phelps, Mr. Upham, Mr. Miller, Mr. Felch, Mr. Dodge, Mr. Whitcomb, Mr. Cass.

LIFE INSURANCE.

SAFETY—STABILITY—ECONOMY.

THE ÆTNA INSURANCE COMPANY, of Hartford, have organized the *LIFE DEPARTMENT*, with a new and entirely separate Capital of

$150,000;

all of which has been paid in and thoroughly secured.

This Annuity Fund is exclusively liable, pledged and appropriated with its reserved accumulations by the charter and regulations of the Company, to the payment of annuities and losses upon Insurances on Life, and in no event liable for the other debts, contracts, liabilities or engagements of the Company.

The tariff of rates has been formed as low as is consistent with ultimate safety, and graduated with reference to the ability of the office to fulfil its engagements. The system adopted by this Company is believed to be the best adapted to secure stability and permanency on the part of the office, and at the same time designed to accomplish, in the most beneficial manner, the object and purposes of the assured. This system is attended with no vexatious or uncertain contingencies. Its leading idea is to ascertain precisely what it is worth to insure a given amount upon life, for a certain time, and to charge precisely that sum, and no more.

October 1st, 1850.

Tavern Stand and Store for Sale.

THE Tavern Stand and Store in E. C. Smith's, on the main Bangor Road from Hallowell to Messrs. Hall's Factory, formerly occupied by P. P. Pearson and recently by James Bridgham, is offered for sale.

There are on the premises excellent barns, including the bull ring, and all buildings are large and convenient,—a good well of water and many other conveniences to the premises.

The Tavern has an extensive run of business, and a rare opportunity is now offered to any one who wishes to purchase. Terms liberal.

For further particulars inquire of C. P. PEARSON, of Bangor, NATHANIEL CUSHMAN, of Hallowell, or JAMES HOOPER, on the premises.

AND

Ready-Made Clothing,

NO. 14 WEST MARKET SQUARE.

He has also made arrangements, by which he will receive the best assortment of new goods, and will be able to sell lower than any other establishment in the State. The best of German, French, English and American VESTINGS of the most fashionable and choice patterns, and of every description, texture and color. Also, a large assortment of silk and satin vestings. The determination has been to keep the stock complete in the market, purchasing the cheapest and selling as low as the lowest, and he flatters himself that he can give entire satisfaction to all who may favor him with their custom.

READY-MADE CLOTHING!

Is now to be well understood that he who would obtain the best clothing and most comfortable garments should seek them at the establishment, in which the first considerations are the skill and taste of the workmen employed in the manufacture, and the best materials that can be procured. In the latter case he meet the objection that gives to every garment its impress of fashion at the lowest possible cost, which is obtained by the advantage of the public patronage, which enables him to dispense with the profits of middle men, and purchase in large quantities for cash, and manufacture on a large scale. Every article of clothing is made in the establishment, and warranted to be of the best materials and workmanship, and to retain its shape and color. The public are invited to call and examine for themselves, and will be satisfied that the above is no humbug, but a reality.

OVER COATS

In large quantities, made of all the fashionable cloths, from the finest Cassimere to the coarsest Pilot, Beaver and Kersey, in all the various colors, including Camel's Hair mixtures, which have been pronounced, by competent judges, to be the best article ever offered.

DRESS COATS.

2,000 Coats of all the various colors, in Black, Blue, Brown, Olive, Invisible Green, Claret, Fancy Cassimere, Satin and Velvet, some of them very fine.

THE

GENUINE BALM OF COLUMBIA.

IF you want a Luxuriant head of hair, free from dandruff, and a beautiful gloss and silkiness, use the Genuine Balm of Columbia. In cases of baldness, where the hair has fallen out, or become thin, it will restore a growth sufficient to cover the head with a profusion of curls. Those whose hair is turning gray, will find that the use of this Balm will restore it to its original color, without leaving that unnatural appearance so common with dyes. It is the only article that will keep the hair in curl. Ladies and gentlemen who have used it will find no other preparation for the toilet equal to it. Those who have not used it, will find it the best article they can purchase. Price 50 cts. per bottle. Sold by all druggists and fancy dealers throughout the country.

Be sure you get the genuine. Each bottle has a steel plate engraving of Columbia, and the signature of the proprietor on the wrapper of each bottle, all of which are executed with a counterfeit of difficult execution.
